EDUCATION

Tufts University School of Engineering, Boston

Expected December 2018

B.S. in Computer Science

GPA: 3.57 / 4.00, Dean's List (Fall 2015 - Present)

Relevant course work: Data Structures, Algorithms, Machine Structures and Assembly Language, Computation Theory, Programming Languages, Artificial Intelligence, Web Programming, Android Development, Calculus

PROJECTS & STARTUPS

BarBack

Phone and Web application that allows patrons to order drinks from their phone when at a bar or club

- · Built app using React Native and Redux
- · Coordinated with rest of development and marketing team

WikiLinks

Web app for the 6 degrees of Wikipedia game

- · Single load web app utilizing React and AJAX calls to transition between pages without reload
- · Server-side rendering of React for faster load and crawling of HTML by bots
- · Built entire backend using Node.js, allowing for code sharing between front and back ends

WORK EXPERIENCE

Facebook May - August 2017 (12 weeks)

Software Engineering Intern, Lead Ads Product

Menlo Park, CA

- · Refactored majority of product's Android codebase to make it more extensible and maintainable. Used these changes to build new features that would have otherwise been impossible
- · Analyzed data from A/B tests to make meaningful product decisions
- · Built new customer-facing tools in Ads Manager using React

Switch Media September 2014 - May 2016

Australia's industry leader in storing, encoding, and distributing live and on-demand video content

Application Architect and Developer

October 2015 - May 2016

Medford, MA

- · Designed and built Presto, an Australian video on demand service similar to Hulu, for the Roku streaming platform on contract basis
- · Performed code reviews on the two other members of development team

Support Engineer and Back-End Programmer

September 2014 - May 2015

Sydney, Australia

- · First point of contact for clients including Foxtel, the largest cable company in Australia
- \cdot Sole on-site representative to provide support to Yahoo! 7 at the Australian Open Tennis Tournament
- · Built custom internal and client-facing web tools using PHP, HTML, JavaScript

Tufts University

September 2017 - Present

Teaching Assistant - Web Programming

Somerville, MA

- · Helped students grasp concepts such as the client-server model, asynchronous tasks, and database systems
- · Reviewed student code for both improvements and functional correctness
- · Held office hours

Camp Foley

June - August 2016 (9 weeks)

Pine River, MN

Camp Counselor and Trip Leader

· Planned and executed events for approximately 160 people

· Taught high-risk activities including archery and rock climbing

SKILLS

Languages JavaScript, Java, C/C++, HTML, CSS, Python, PHP, LaTex Frameworks React, React Native, Redux, Node, MySQL, MongoDb, Django Unix, Apache, Mercurial, Git & Github, SVN, Android Studio
